

SANVO Structural Threadlocker SH-519

Product Description

SANVO Structural Threadlocker SH-519 is anaerobic structural adhesive, with fast curing, high shear force, impact resistance, vibration resistance and medium resistance, is suitable for bonding and sealing of rigid materials and mechanical equipment with strong vibration.

Applications

Mainly used in structural bonding and sealing of main NdFeB (loudspeaker magnet), motor magnet, metal to metal, glass, crystal and other rigid materials, also known as special adhesive for magnetic steel.

Features

- Fast curing
- High shear force, impact resistance
- Suitable for all metal fasteners
- Vibration resistance and medium resistance

Technical Data
