

SANVO Threadlocker SH-263

Product Description

SANVO Threadlocker SH-263 is a red, dual cure, acrylic dimethacrylate ester fluorescent threadlocker designed for the permanent locking and sealing of threaded fasteners. It cures between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. It works on active metals (e.g. brass, copper) and passive substrates such as stainless steel and plated surfaces.

Applications

SANVO Threadlocker SH-263 is designed for the permanent locking and sealing of threaded fasteners.

Features

- Designed for the permanent locking and sealing of threaded fasteners
- Prevents loosening and leakage from shock and vibration
- Particularly suited for heavy duty applications such as studs into motor housings where high strength is required
- Provides robust curing performance
- Offers high temperature performance and oil tolerance

Technical Data

Color	Red
Appearance	Liquid
Base	Dimethylacrylate easter
Components	One component-requires no mixing
Cure	Anaerobic
Application	Threadlocking
Viscosity	Low
Strength	High
Shelf life	24 months

Storage and Disposal

Not damaged by freezing. Close the tube tightly after each use. Store product in the unopened container in a dry location. Optimal storage is between 46°F (8°C) to 70°F (21°C).

Packing/Size

50g×10pcs×10box/carton

250g×20pcs/carton
