

SANVO medium strength Threadlocker SH-243

Product Description

SANVO Threadlocker SH-243 is a medium strength blue threadlocking adhesive that seals and secures metal nuts and bolts to prevent loosening due to shock and vibration.

SANVO Threadlocker SH-243 is a general purpose threadlocker that provides a medium strength bond. It is proven to be tolerant of minor contamination due to industrial oils, e.g., motor oils, corrosion prevention oils and cutting fluid.

Applications

SANVO medium strength Threadlocker SH-243 is Medium strength, thixotropic methacrylate-based threadlocking adhesive which works on all metals, including passive substrates such as stainless steel, aluminum and plated surfaces.

Features

- Prevents loosening on vibrating assemblies, e.g. pumps, gear boxes or presses
- Works on all metals, including passive substrates (e.g. stainless steel, aluminum, plated surfaces) Suitable for all metal fasteners
- Proven to tolerate minor contamination by industrial oils, e.g. motor oils, corrosion prevention oils and cutting fluids
- Permits disassembly with hand tools for servicing

Technical Data

Color	Blue
Appearance	Liquid
Base	Dimethylacrylate ester
Components	One component-requires no mixing
Cure	Anaerobic
Application	Threadlocking
Viscosity	Medium, thixotropic
Shelf life	24 months

Storage and Disposal

Not damaged by freezing. Close the tube tightly after each use. Store product in the unopened container in a dry location. Optimal storage is between 46°F (8°C) to 70°F (21°C).

Packing/Size

50g×10pcs×10box/carton

250g×20pcs/carton
